BESPOKE BRANDING

We work alongside many of the world's leading drinks companies to develop their bespoke glass and barware.

As experts in our field our bespoke and branded service includes:

- Developing concepts/items within brand guidelines, that can be manufactured
- Producing renders, technical drawings, 3D printed plexi models and actual samples
- Offering all packing and branding options
- Offering competitive costs including global delivery/ stock holding as required

We have been developing products for almost forty years and continue to develop and learn new techniques; this enables us to produce cutting edge items to keep pace with the evolution of mixology and drinking culture. At the same time we are striving to bring the skills of the past back into the future.

We have developed this attention to detail and passion in our products through seeing how they are used and the energy and devotion put into the creation of a drink or the release of a new spirit.

Should you have any questions, issues or an idea for a new product then please do not hesitate to get in touch with us.

CASE STUDIES

ELIT BARWARE

This range of bar tools was designed to complement the bottle borrowing the distinctive diagonal line.

We created the designs and tooling for all the items, producing 3D prints to ensure all products worked together and fit within the brand guidelines and concept.

CASE STUDIES

BACARDI CUBA LIBRE GLASS

This glass was designed to sit with the bottle at point of service.

The design incorporated both elements of the bottle and brand, creating a robust glass for use in bars.

This was produced in a very short time (8 weeks) to coincide with the launch of the product, in that time we created the drawing, models and stock.

CHAMBORD PLASTIC PITCHER

This plastic jug had two versions. One for use as a VAP with a separate handle that would be permanently attached to the jug (using a locking clasp, to save space), with the liquor bottle securely housed within the jug.

The other as a single piece item (with purple handle) for use in bars.

This jug had to meet both size, pack and budget requirements.

PACKAGING

FREEPOUR®

A registered design with practicalities in mind as opposed to just pouring or storing.

Blue (UB100B)
Red (UB100R)
Yellow (UB100Y)
Orange (UB100O)
White (UB100W)
Green (UB100G)

105cl / 37oz
H 340mm, W 99mm

- Three pieces: coloured top, storage base and matching coloured storage lid
- 1.08L brim full: not a US quart (95cl) so a 5% saving in the juice bill
- Air intake hole on shoulder prevents blockages and allows smooth flow of juice
- Choice of 6 colours
- Textured neck for easy grip
- Fits all speed rails
- All pieces go straight in glass washer: no more forcing of pouring spouts, soaking or having to remove and clean pieces.
- The plastic is not brittle so tops less likely to break when dropped
- Rigid, semi transparent, wasted body: easy grip, prevents flexing and spillage when filling

BARRELS

AMERICAN WHITE OAK AGEING BARRELS

Ageing your own spirits and cocktails gives you a unique opportunity to create something new. Our tabletop mini oak barrels let you innovate on popular spirits, and create new tastes. The American white oak has a medium char, imparting a smokey, smooth character with vanilla and caramel flavours.

Each barrel comes complete with oak stand, spigot, bung, funnel, storage tablets and instruction leaflet.

All our Ageing Barrels can be laser engraved, as seen on the image below.
